

MANAGING THE IKEA WAY

A working model for change, culture and leadership.

Staffan Jeppsson

The person who oversaw IKEA culture and concept,
shadowing IKEA's founder and CEO.

There are those who believe that IKEA was built on decent quality furniture at good price levels. There is an ounce of truth to that, but IKEA was built, above all, on values, Ingvar Kamprad's values interpreted into leadership

Leveraging my 30 years at IKEA, several of them working directly for the visionary IKEA's Founder, Ingvar Kamprad, I've built this program to empower you to cultivate authentic leadership and a strong organizational culture.

Day 1 will open with an intimate meet-and-greet session, allowing participants to connect with each other and with me. Following an introduction to the program and my background, participants will experience a unique evening at the great Tomar's Castle and a medieval-inspired dinner, setting the stage for an exploration into IKEA's leadership and culture legacy.

Day 2 unlocks the DNA of IKEA's success. Dive deep into the world of Swedish leadership and Ingvar Kamprad's lasting impact on the company's culture, values, spirit and legal framework. We'll dissect IKEA's concept-driven brand, decentralized decision-making, and Kamprad's leadership philosophy, revealing how these elements contribute to exceptional store performance, coworker satisfaction, and a positive customer experience.

Day 3 will turn to practical leadership applications, exploring the IKEA approach to feedback and coaching. Executives will work with the 4-room model - a framework for growth and development that supports problem-solving and empower leaders to guide teams through transitions and inspire progress. The day concludes with "My Conscious Leadership." In this session I will share my 12 principles of leadership and discuss Geert Hofstede's model of cultural differences.

The program's ambition is that IKEA's grounded and value-driven approach could help you to refine your own authentic leadership.

Sincerely,
Staffan Jeppsson
